Underpads

Undershield

Harbor’s patented underpads have the following features:

• Reduces moisture and pressure allowing skin to stay cool and dry
• Air permeable but waterproof creating maximum air flow for better patient comfort
• Draws Fluid from the surface layer to the soaker allowing it to wick and spread fluid quickly away from the patient contact
• Soft, quiet and comfortable, yet resilient, ensuring patient comfort while providing superior bed protection
• Wetness indicator changes color to indicate moisture on the pad
• 1/3 less weight, significantly reducing laundering costs
• Compact and thin, for ease of use by staff
• Reduces use of chemicals in laundering
• Reduces drying time
• Saves energy
• Outlasts traditional pads

Cubicle Curtains

Harbor Linen defines the “Q” in Quality Cubicle Curtains

Not all cubicle curtains are made the same — fabric choice is only half the product. Proper construction truly ensures long life and the quality finished product you desire. No one can offer you a better product. See some specifics below:

Unique 100% polyester mesh, triple folded with lock stitching creates a secure top hem. Nickel plated rust proof grommets also extend product life.

Felled panel seams present a finished appearance on both sides of the curtain.

Mesh & fabric join in a crisp, clean finished appearance created by hem on mesh and double needle stitching.

Permanent stiffner used in side hems of mesh provides a sharp clean appearance.

Every curtain is tagged with size and care instructions.

Side and bottom hems feature double folded “I” lock stitched dual needle construction.
